

YGION Biomedical is a Vienna-based innovative and dynamic biomedical company operating at the Vienna Biocenter, a vibrant life science hub. We develop targeted, fully individualized immunotherapies to defeat cancer and improve patient's lives.

We are looking for enthusiastic and visionary individuals who are passionate about our mission to join our team as a

Chief Medical Officer (m/f/d) part-time (25h)

As Chief Medical Officer (CMO), you will shape and drive our company's clinical development and the medical strategy for our innovative cancer immunotherapies. In this pivotal role, you will ensure our programs adhere to the highest medical and ethical standards, while also shaping our clinical vision and guiding our research from bench to bedside.

Your key **tasks** and **responsibilities** will include:

- Define and oversee the company's **clinical vision** and **strategy** to ensure alignment with our scientific goals and regulatory requirements;
- Guide the design and execution of **clinical trials**, ensuring scientific rigor, patient safety, and compliance with regulatory requirements;
- Provide **clinical insights** to advance our pipeline and advise on the medical implications of scientific developments;
- Collaborate with **regulatory authorities** to navigate approval pathways, submit documentation, and support the achievement of regulatory milestones;
- Build and maintain relationships with leading **clinical KOLs** to gather insights, drive program support, and ensure alignment with industry-leading practices;
- Work in **cross-functional collaboration** with the Chief Scientific Officer, R&D regulatory, and management teams to align clinical strategies and product development;
- **Present clinical progress** and data to internal and external stakeholders, including scientific partners, regulatory bodies, and investors.

Your **profile**:

- **Medical degree** (MD, MD-PhD or equivalent)
- Profound experience in **clinical trial design** & execution, ideally in oncology/immunotherapy;
- **Prior experience** for at least **5 yrs** within the biotech/pharmaceutical industry in a senior role;
- Deep understanding of clinical and **regulatory guidelines** (e.g., FDA, EMA, and ICH).
- Proven **leadership abilities** with strong communication, decision-making, and cross-functional collaboration skills.
- Proficient in **English**, both written and spoken.

The successful applicant will be an integral part of a dedicated team involved in exciting projects in the area of cancer immunotherapy. We offer a high degree of flexibility and foster a proactive working style with contribution of your own ideas. This position offers the opportunity for flexible working hours. This role requires regular onsite presence in Vienna, with some flexibility for remote work.

If you are interested to work with us, please send your application to careers@ygion.bio. Applications will be reviewed on a rolling basis until the position is filled.

YGION Biomedical is an equal opportunity employer, and we encourage individuals from all backgrounds to apply.

Disclaimer according to Austrian Law: the minimal gross salary according to the collective agreement is EUR 6.422,37 per month for a full-time position (40 hours per week). Remuneration will be according to experience and performance.
