

YGION Biomedical is a Vienna-based innovative and dynamic biomedical company operating at the Vienna Biocenter, a vibrant life science hub. We develop targeted, fully individualized immunotherapies to defeat cancer and improve patient's lives.

We are looking for enthusiastic and highly motivated individuals who are passionate about our mission to join our team as a

**Chief Scientific Officer (m/f/d)**  
full-time (part-time arrangement possible)

As Chief Scientific Officer (CSO), you will shape and drive our company's scientific vision and strategy. In this pivotal role, you will oversee product development, manage our R&D activities, and lead a talented team of researchers. We are looking for a strategic thinker with a passion for advancing cutting edge science in cancer immunotherapy who thrives in a dynamic, collaborative environment.

Your key **tasks** and **responsibilities** will include:

- Provide **scientific leadership** and define the strategic direction for the company's lead programs, ensuring scientific excellence and alignment with the company goals;
- Manage the company's **research and development activities** to meet milestones efficiently and effectively;
- **Secure funding** through grant applications, investor pitches, and other fundraising activities to support company growth and innovation;
- Foster a highly **collaborative, motivated, and solution-focused** culture;
- Prepare and deliver compelling **presentations** to internal and external **stakeholders**, showcasing scientific progress, strategies and resources;
- Lead efforts to identify and generate novel **intellectual property**, in alignment with the company's scientific and commercial strategy.

Your **profile**:

- **Advanced degree** in biological, natural or medical sciences;
- Strong technical background in **immunology, immuno-oncology** or a similar discipline; familiarity with next-generation sequencing (NGS) and/or bioinformatics is an advantage;
- **Prior experience** for at least **5 years** within the biotech or pharmaceutical industry in a leading role;
- Experience in **project management** with proven **leadership capabilities**;
- Excellent **analytical, organizational** and **decision-making** skills;
- Proficient in **English**, both written and spoken.

The successful applicant will be an integral part of a dedicated team involved in exciting projects in the area of cancer immunotherapy. We offer a high degree of flexibility and foster a proactive working style with contribution of your own ideas. This position offers the opportunity for flexible working hours and part-time arrangements. This role requires regular onsite presence in Vienna, with some flexibility for remote work.

If you are interested to work with us, please send your application to [careers@ygion.bio](mailto:careers@ygion.bio). Applications will be reviewed on a rolling basis until the position is filled.

YGION Biomedical is an equal opportunity employer, and we encourage individuals from all backgrounds to apply.

Disclaimer according to Austrian Law: the minimal gross salary according to the collective agreement is EUR 6.422,37 per month for a full-time position (40 hours per week). Remuneration will be according to experience and performance.
