

At bit.bio discovery, we combine unbiased functional genomic screening with the best human cellular models available, to identify critical genes and pathways driving disease states or provide unique insights into the mechanism of action of drugs. Our company culture is fast-paced and collaborative with a strong commitment to excellent science. We are looking for people who are passionate about our mission and who genuinely care about delivering superior work. We currently have an opening for a

Lab Support (F/D/M) – part-time (20-25h)

The position can be filled immediately and comprises of the following tasks and responsibilities:

- **Reagent Aliquoting:** Preparation and aliquoting reagents for experiments; Trackable and reproduceable documentation of steps.
- **Media preparation:** preparation and aliquoting media for experiments; Conducting sterility tests as required to maintain the quality and reliability of reagents.
- **Plate Coating:** coating plates for experiments; ensuring accuracy and precision in coating procedures.
- **Restocking of Consumables:** Restocking laboratory consumables to ensure uninterrupted lab operations.
- **Bench Organization:** Keeping lab benches clean, tidy, and well-organized to facilitate efficient workspaces for researchers.
- **Equipment Maintenance:** Performing maintenance tasks and calibration on lab equipment.
- **Waste Management:** collection and disposal of liquid and solid waste according to our safety regulations
- **Documentation:** Maintaining accurate records and documentation related to lab activities, equipment maintenance, and inventory.
- **Collaboration:** Collaborating closely with team members to support ongoing projects and experiments.

We have built an exceptional team of brilliant yet humble individuals, who are driven by results and enjoy tackling complex challenges together. This is an opportunity to become an integral member of a highly productive team and to help grow an entrepreneurial, scientifically driven organization.

As bit.bio discovery operates in an international environment, good English skills are required.

If you would like to be part of a young and exciting company, please send your application to Sejla Salic (career@bitbiodiscovery.com) no later than December 15th, 2024. Note that candidates will be invited for interviews on a rolling basis!

Disclaimer according to Austrian Law: the indicated minimum base salary of EUR 2.370 per month pertains to a full-time position. For part-time positions, the remuneration will be calculated proportionally based on this full-time equivalent. Actual compensation will further consider individual experience and performance.
